

14 Fun Facts About BLACK HOLES

TV and movies will have you believing that black holes are huge holes in space and anything that falls into them is lost forever – possibly falling into another universe or another time. Or even falling forever.

Black holes run around in space like huge vacuum cleaners sucking up everything in their path. This is not true.

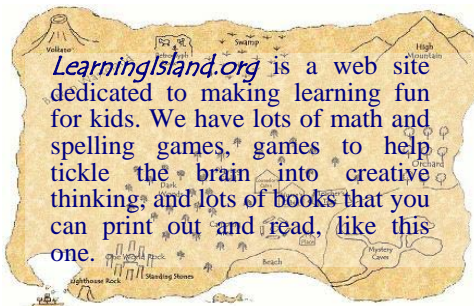

But what actually is a black hole and what do they do? This book will help you find out.

Is a black hole a star?

How many black holes are in our galaxy?

What is the “event horizon”?
